

DENTISTS' COMMITTEE FOR A MERCURY FREE AFRICA

MINAMATA CONVENTION ON MERCURY

International Mercury Free Dentistry Seminar & Hands on Workshop

JUNE 15TH - 16TH, 2020 LAGOS, NIGERIA

MAKE MERCURY HISTORY IN AFRICA

"Mercury is a chemical of global concern owing to its long-range atmospheric transport, its persistence in the environment once anthropogenically introduced, its ability to bioaccumulate in ecosystems and its significant negative effects on human health and the environment." - *First preamble of the Minamata Convention on Mercury*

Support Mercury Free Dentistry In Africa

Mercury damages children's brain even before they are born. Dental Amalgam is about 50% mercury. Protect our environment, the health of our pregnant and lactating women, children and young adults.
